

## **Bio – Tapiwa Munyanyi**

Tapiwa is an early professional in the Canadian Personal and Business Banking industry where he advises on retail banking services such as bank accounts and referring investments to his Securities team. He is also coachable on new industry trends and looks to progress his career into Enterprise Applications and E-business. Leveraging the business requirements of the bank together with the IT structure in order to achieve overall business efficiency.

He is a recent graduate from Saint Mary's University Halifax with a Bachelor of Commerce in Computing and Information Systems. His main focus is the management of data in the Canadian Banking System.

Tapiwa loves new technologies such as blockchain and Standard Query Language for managing data. Outside of work Tapiwa likes to gym and play rugby and always believes that one's attitude will determine one's altitude.
